

# Slumbering Sasquatch Medical Clearance Form

Indication for general anesthesia clearance:

---

Our mutual patient \_\_\_\_\_ is planning to undergo a dental procedure in an office based setting under general anesthesia. They will be receiving IV propofol, Toradol, Decadron, and Precedex as well as inhalation sevoflurane. A qualified anesthesia provider will be monitoring them continuously and will secure their airway with an endotracheal tube. Your help in completing this form is greatly appreciated.
